

INTELLIGENCE · QUARTERLY UPDATE

Threat Analysis and Intelligence

Effective security requires knowing what you are up against. Threat analysis provides an up-to-date, actionable view of the risk environment — prepared by people who have worked in institutional intelligence.

WHO IS THIS FOR?

- Large critical operators
- Security and compliance managers
- Companies facing high-risk events

DEADLINE / KEY DATA

7-10
working days
Report delivery

WHAT IS INCLUDED?

- ✓ Analysis of the physical threat landscape for the company's sector
- ✓ Identification of risk actors relevant to the organisation
- ✓ Assessment of the most likely attack vectors and their potential impact
- ✓ Analysis of the geopolitical context relevant to operations
- ✓ Recent incident trends in the sector, nationally and internationally
- ✓ Executive report with prioritised mitigation recommendations
- ✓ Quarterly update available as a subscription service
- ✓ Presentation briefing for the management team

REGULATORY FRAMEWORK

Law 8/2011	Threat analysis is an essential component of the OSP. This report can serve as a basis for updating security plans.
CER Directive	Requires critical entities to keep an up-to-date view of threats to support their resilience measures.
NIS2	Requires proactive risk management based on knowledge of the sector's threat landscape.
GDPR	OSINT analysis is carried out in line with the data protection framework and without infringing third-party privacy.

WORKING PROCESS

01**DAY 1****Scope definition**

Kick-off meeting to define the analysis perimeter: sector, geography, priority assets and analysis period.

02**DAY 1-5****Intelligence gathering**

Analysis of open sources (OSINT), incident databases, sector reports and relevant geopolitical context.

03**DAY 5-8****Analysis and assessment**

Cross-checking and assessment of information: actors, capabilities, intentions and likelihood of materialisation.

04**DAY 8-10****Report and briefing**

Delivery of the executive report and a session presenting the findings to the management or security team.

KEY DELIVERABLES

- Executive threat report (summary for management)
- Detailed technical analysis: actors, vectors and probabilities
- Risk heat map by threat type
- Profiles of identified risk actors
- Prioritised mitigation recommendations with estimated cost/benefit
